Portfolio: <https://jeffersoncanuto-portfolio.vercel.app/>

## GOALS

Have the opportunity to work collaboratively in new, large, impactful and innovative software engineering projects, as a Fullstack or even a Frontend Engineer. Be able to conduct my daily activities alongside engaged, focused and cohesive colleagues, within a work environment that fosters professional/personal growth by encouraging goal setting and achievement and continuous exchange of knowledge/experiences.

## EDUCATION

### UNIVERSIDADE FEDERAL DO RIO GRANDE DO NORTE

Science and Technology (BSc)

January/2013 - July/2017

### UNIVERSIDADE FEDERAL DO RIO GRANDE DO NORTE

Telecommunications Engineering (BEng)

July/2017 - Unfinished

## EXPERIENCE

### SIDIA INSTITUTO DE CIENCIA E TECNOLOGIA

Software Engineer (Web/Android) | Apr. 2021 - Jun. 2024

- Principal Fullstack Engineer and Technical Leader for the Automation Team (Tools: PLM Reporter, TRO.IA and PLMN).
- Fullstack Engineering Leader responsible for architecting and coding PLM Reporter tool from scratch and implementing all the core features in client and server sides (Login/Logout with JWT Auth, Dashboards and Statistics pages, User Profile, etc).
