SUMMARY

I am actively seeking job opportunities that allow me to collaborate on impactful, large-scale and innovative software engineering projects, as a Fullstack or a Frontend Engineer, and in a collaborative environment that fosters professional and personal growth through goal-setting, continuous learning and strong knowledge/experience sharing.

EDUCATION

UNIVERSIDADE FEDERAL DO RIO GRANDE DO NORTE

Science and Technology (BSc)

January/2013 - July/2017

UNIVERSIDADE FEDERAL DO RIO GRANDE DO NORTE

Telecommunications Engineering (BEng)

July/2017 - Unfinished

EXPERIENCE

VOICEDROP

Software Engineer (Web) | Mar. 2025 - Nowadays

- Design, implement and deploy responsive user interfaces, databases and RESTful APIs for scalable and reliable web apps.
- Design, implement and deploy a subscription-based payment system to collect revenue on both a weekly and monthly basis.
- Integrate Stripe APIs to enable seamless and secure subscription payment processing through an external payment gateway.

SIDIA INSTITUTO DE CIENCIA E TECNOLOGIA

Software Engineer (Web/Android) | Apr. 2021 - Jun. 2024

- Principal Fullstack Engineer and Technical Leader for the Automation Team (Tools: PLM Reporter, TRO.IA and PLMN).
- Design, implement, deploy and maintain PLM Reporter, TRO.IA and PLMN tools to enable scalable and reliable web applications.
- Technical Leader for the Samsung LATAM team responsible for coding and deploying STIR/Shaken and RCD solutions in Brazil.

LOGICA SISTEMAS DE INFORMACAO EIRELI

Fullstack Developer (Web) | Aug. 2019 - Nov. 2020

- Design, implement and deploy Dashboards to monitor IPv4/IPv6 and CDN/Non-CDN data traffic, enabling effective data analytics.
- Design, implement and deploy a service to generate periodical IPv4/IPv6 traffic reports, enabling reliable data-driven decisions.
- Design, implement and deploy microservices to perform data transfer between storage units and VACUUM in Database tables.

SKILLS

- Technologies: JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, React, Next.js, Redux/ContextAPI, Material UI, Node.js, Python, Django REST, Flask, PostgreSQL, MongoDB, Docker, Git and Linux.
- Frontend unit testing using Jest and RTL.
- Agile Methodologies (Scrum/Kanban/Scrumban).
- Technical Leadership and Project Management.
- Teamwork/Proactivity/Communication.
- Analytical reasoning for problem solving.
- Advanced English Level (C1).
